Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11, 13-21, and 23-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Sawano (European Patent Office No. 10106074).

With respect to Claims 1-11, 13-21, 23-25, Sawano, teaches a guide assembly comprising a first roller including a perimeter surface, a circumference, a longitudinal axis and a groove 1b disposed into the perimeter surface, the groove having a groove length that is less than the circumference.

With respect to Claim 26-31, the method described in these claims would inherently result from the use of the guide roller of Sawano as advanced above.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 12, 22, and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sawano as applied to claims 1-11 and 13 above.

Art Unit: 3654

With respect to Claims 12 and 22, Sawano is advanced above. Sawano teaches all the elements of the guide assembly except for a second roller. However, it would have been obvious to one of ordinary skill in the art since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art. Further, having more than one guide roll in a tape drive system is notoriously old and well known.

With respect to Claim 32, the method described in these claims would inherently result from the use of the guide roller of Sawano as advanced above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
